IT SOLUTIONS

BEYOND ERP,
INTELLIGENT AUTOMATION

We turn manual complexities into intelligent, automated workflows that improve efficiency, accuracy, and business agility.

steigend
IT SOLUTIONS

Intelligent Automation.
Real Business Impact.

We layer intelligent automation on top of your Odoo ERP — turning manual bottlenecks into fully automated, self-optimizing workflows that free your team to focus on growth.

Predictive Analytics & Forecasting

AI-driven demand forecasting, stock reorder prediction, and sales trend analysis — trained on your own Odoo data for accuracy that generic tools can't match.

Intelligent Document Processing

Auto-extract and validate data from invoices, POs, delivery notes, and contracts using OCR + LLM pipelines — directly into Odoo with zero manual entry.

Business Process Automation

Map, digitize, and automate your end-to-end workflows — approvals, escalations, scheduling, reporting — with logic that adapts as your business evolves.

AI Chatbots & Virtual Assistants

Custom LLM-powered chatbots for customer support, internal HR queries, and ERP navigation — integrated with WhatsApp, web, and your Odoo backend.

AI-powered Dashboards & BI

Real-time business intelligence with natural language queries — ask "show me top customers last quarter" and get an instant, interactive Odoo report.

Industry Expertise
Deep understanding of industry processes

Tailored Solutions
Built to fit your unique business needs

Scalable & Flexible
Grow your business with confidence

Long-term Partnership
Committed to your success at every step

INDUSTRIES SERVED

Solutions Built for Every Industry

steigend IT SOLUTIONS

Steigend IT Solutions delivers industry-specific Odoo ERP solutions that streamline operations, improve efficiency and drive measurable growth.

MANUFACTURING

End-to-end manufacturing management covering production, planning, quality control, inventory and costing.

KINGS DENTAL CENTER

GLOBAL HR & FINANCE INTEGRATION

INDUSTRY
Dental Healthcare

SCALE
20+ Global Branches

THE CHALLENGE

Rapid expansion across multiple branches created fragmented HR processes, inconsistent employee records and limited centralized visibility.

The client needed a unified system to streamline HR operations and integrate financial processes for better accuracy and control.

THE STEIGEND SOLUTION

Recruitment & Employee Lifecycle
End-to-end recruitment and employee lifecycle management.

Centralized HR Operations
Unified HR processes and employee records across 20+ branches.

Standardized Workflows
Consistent HR policies, approvals and processes across the organization.

Odoo Accounting Integration
Integration of the client's custom software with Odoo Accounting.

Automated Synchronization
Automated synchronization of accounting entries between systems.

Centralized Financial Reporting
Improved management visibility across HR and financial operations.

BUSINESS IMPACT

- **20+** Branches Connected
- **Streamlined** Recruitment
- **Centralized** HR Operations
- **Automated** Accounting Integration
- **Improved** Data Accuracy
- **Better** Management Visibility

RESULT

A scalable Odoo-based platform connecting global HR operations with financial data, enabling Kings Dental Center to manage its growing organization with greater efficiency, accuracy and control.

GLOBALSOURCES
GENERAL CONTRACTING CO. LTD.

DIGITAL TRANSFORMATION OF A LEADING CONSTRUCTION COMPANY IN SAUDI ARABIA

INDUSTRY
EPC & Construction
Oil & Gas | Petrochemical | Power

SCALE
1,100+ Employees
100+ Biometric Devices

RESULT
A unified ERP platform transformed fragmented operations into a connected, data-driven construction management environment—giving management greater control over people, materials, costs and project profitability.

THE CHALLENGE

- Rapid growth across multiple project locations created challenges in workforce management, material traceability, project costing and management reporting.
- Fragmented systems and manual processes limited real-time visibility and increased operational effort.

THE STEIGEND SOLUTION

Workforce & Payroll Automation
Automated attendance, overtime, shifts, leave and payroll management.

Material Traceability
Complete tracking of material requisition, transfer, issue, return and consumption.

100+ Biometric Device Integration
Connected biometric devices across multiple project locations.

Project Cost Allocation
Real-time allocation of payroll, procurement, inventory, expenses and accounting to projects.

Project-Wise Manpower Tracking
Centralized workforce visibility and project allocation.

Executive Dashboards
Management dashboards for profitability, utilization, inventory and budget vs. actuals.

BUSINESS IMPACT

- **1,100+** Employees Centralized
- **100+** Biometric Devices Integrated
- **Complete** Project Material Traceability
- **Real-Time** Project Cost Visibility
- **Improved** Inventory Accountability
- **Faster** Management Reporting
- **Better** Project Cost Control
- **Stronger** Operational Efficiency

BUSINESS IMPACT

- **20+** Branches Connected
- **Streamlined** Recruitment
- **Centralized** HR Operations
- **Automated** Accounting Integration
- **Improved** Data Accuracy
- **Better** Management Visibility

RESULT

A scalable Odoo-based platform connecting global HR operations with financial data, enabling **Globalsources** to manage its growing organization with greater efficiency, accuracy and control.

EASTERN TREADS™

TYRE RETREADING MANUFACTURER

End-to-End Manufacturing ERP Transformation

INDUSTRY
Manufacturing
| Tyre Retreading

SCALE
15+ Branches
Across India

> "A leading tyre retreading company operating across 15+ branches required centralized control over its manufacturing operations. Multiple processes, material movements and production stages needed better traceability, standardization, costing and reporting."

THE CHALLENGE

A leading tyre retreading company operating across 15+ branches required centralized control over its manufacturing operations. Multiple processes, material movements and production stages needed better traceability, standardization, costing and reporting.

THE STEIGEND SOLUTION

End-to-End Process Management
Complete workflow from tyre inspection through final dispatch.

Casing & Batch Traceability
Track casings, batches and production stages throughout the process.

Production Management
Production planning and process tracking across buffing, skiving, repairing, tread building and curing.

Quality Control
Inspection and quality management across the production cycle.

Inventory & Material Management
Raw material management, material consumption and wastage tracking.

Machine & Production Monitoring
Machine utilization and production performance monitoring.

Costing & Profitability
Real-time production costing and profitability analysis.

Centralized Reporting
Consolidated reporting and management visibility across all branches.

BUSINESS IMPACT

15+
Branches Connected

End-to-End
Process Traceability

Improved
Production Control
